 Memo:

Regarding Updation and Promotion of students in SDMIS thereof;

In continuation to the previous exercise regarding uploading of students wise data in Student Data Management Information System (SDMIS.UDISE.IN) in 2016-17 as student tracking system.

This year i.e. 2017-18 for updating and promoting of students in next class with section or transfer of students with or without transfer certification - two utilities has been provided offline (through Excel) and online mode (web interface), as per the facilities available to the school any one or both utilities can be adopted.

For the accessing the portal, user credentials are already provided in block level training imparted for 2016-17. You are hereby directed to start the process of SDMIS by promoting / adding/ updating the student in web interface or in excel template.

For promoting the students in online module or offline (excel) module /template you can use DropBox feature of SDMIS portal. Through DropBox feature each student can be tracked if student migrates or moves to another school. We can fetch the student from other school also using this Dropbox facility. For implementation of complete process User Manual is attached herewith. As it is student depended utility following dates are fixed in which it should be complete.
