Govt. High Schools in Una Distt. for information and necessary action.

Deputy Director of Higher Education,
Una Distt. Una (HP).

The Department of Education,
Government of Himachal Pradesh.
Dated: December 09, 2020

Subject: To Invite the Students of Government Schools of India To Participate in World's Largest Coding and Robotics Classroom, An Initiative By Code Bharat.

Respected department,
Exposing children to learning Coding and Robotics from the very initial years of their life helps spark creativity, stimulates critical thinking and develops a collaborative mindset which knows how to solve any problem that comes its way. And India's New Education Policy also believes the same! With coding becoming compulsory for school students in India, this indeed will be opening up a world of opportunities for our young kids.

Joining in and supporting this great initiative by the Ministry Of Education, India, our team at Robochamps, an Indian Edtech Startup, has beautifully crafted a movement that aims to bring all the Educators of our country (from public as well as private sector) together on one virtual platform to discuss about the New Education Polices of the Indian Education System.

Code Bharat: A Community That Decodes Future is organising World's Largest Coding and Robotics Classroom and Students Premier League 2020. Through this World's Largest Classroom in association with World Book Of Records, London, Code Bharat is creating a World Record with 20,000 plus students participating in this classroom. Meanwhile, on the day of Students Premier League 2020, about 50,000 students will be participating in live workshops based on 21st century skills and about 500 School Founders and Principals will be sitting for our panel discussions on Indian Education System

Focusing on the aim of Code Bharat, which is to enhance 21st century skills among the students of India, we are pleased to share our collaboration proposal with the Education Ministry of your Government.

- Free registration of 500 students of the Government Schools of your state in World's Largest Coding and Robotics Classroom. Every student will be given a World Record Participation Certificate
- We invite the Education Officials of your State Government to join us for our panel discussions on India's New Education Policy. These panels will be moderated by the Education Journalists from various media houses.

Code Bharat Community is coming together on January 23 and 24 to address the kids of our country and their future goals.

It will be our immense pleasure to associate with you and take the classroom study of every student of our country to a next level. As we always say, "Kisabon Se Hainka Kuch Padhenge India, Tabhi Toh Kuch Alag Karega India."

We can be found on www.robochamps.co and www.codebharat.in for more information.

Padhega

Yours sincerely,
Team Code Bharat.
