Respected Sir,

As you are aware that the Weekly Iron Folic Acid Supplementation (WIFS) Programme is being implemented through National Health Mission for the prevention of Anaemia. Currently, IFA tablets are given to all students to ingest once in a week from Class 6th to 12th under the supervision of teachers in all Government and Government Aided Schools. The Government of Himachal Pradesh is intending to extend this Programme to include the students of the Private schools in the state as well.

I solicit your kind intervention, if the Management / Principals of the Private Schools within your district be persuaded to extend their consent and cooperation to the Health Department for implementation of this Programme in their Schools so as to safeguard the health of students studying in such Private Schools.

With warm regards,

Yours sincerely,
