

HP BOARD OF SCHOOL EDUCATION DHARAMSHALA(KANGRA)-176213
HiShiBo/Rain Harvesting/Solar Plant/2019-487-498

Dated 24.02.2020

To

All the Deputy Directors of Higher Education,
Himachal Pradesh.

Subject: Installation of Roof Top Solar Power Plants in the Schools of
Himachal Pradesh.

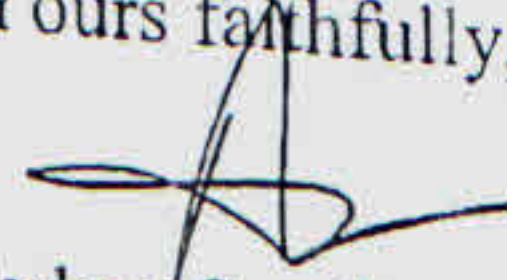

Sir,

It is informed that with the objective of "Conservation of Energy" and to ensure the reliable, affordable and quality electricity supply to all the schools in the entire State of Himachal Pradesh and also to contribute to the National objective of increasing the share of Renewable Energy," the Board is contemplating to install Rooftop Solar Power Plant with capacity of 10KW in the Schools of Himachal Pradesh in collaboration with HIMURJA. For the installation of Rooftop Power Plant with capacity of 10KW there is requirement of 120 square meter space on the vacant roof of the building or in the premises of school with availability of proper sunlight.

There is a feedback that "Solar Power Plants" already exist in some schools. You are, therefore, requested to supply the list of Government and privately managed schools (excluding those schools with solar power plants) of your district with availability of adequate space and proper sunlight to us at earliest so that the further action could be initiated accordingly.

In addition to above, to justify the electricity savings monthly electricity consumption charges of 10 schools of each category viz Senior Secondary, High and Privately managed schools affiliated with the Board may also be supplied.

Yours faithfully,

(Akshey Sood), H.A.S
Secretary
